 - Chassis & Suppliers
 - ATCA Blades: COTS vs. In-House
 - ATCA Blade Suppliers
- V. AMC Modules & MicroTCA
 - Use of MicroTCA
 - AMC Suppliers
 - AMC Usage
- VI. Conclusions

Report Highlights

ATCA is leading the carrier-grade COTS platform, closely followed by rack-mount servers

4G EPC and 3G wireless infrastructure are key applications, together with IMS for VoLTE

Radisys is the leading ATCA supplier for blades and system integration, followed by Kontron, Artesyn and Advantech

COTS ATCA blade usage is growing further, with fewer companies using in-house designs for all blade types

Middleware is developed in-house by majority of companies

ATCA remains the leading platform for AMCs, ahead of MicroTCA and proprietary platforms

MicroTCA is now stable, with 15 percent of vendors using MicroTCA-based systems
