# ZEN BOWLS

PET DINING REDEFINED.

In the case of the ZEN bowls, form really does follow function. Our design team has spent countless hours observing pet dining habits and studying the anatomical differences between the species and individual breeds. Our latest innovation is the uniquely shaped ZEN bowl which conforms ergonomically to a dogs mouth and can also provide relief to cats with hyper-sensitive whiskers. Additional features include a thumb-hole for easy gripping. Oh...by the way, it doubles as a treat receptacle for that 'two-course meal' dining experience.

The subtle reward behind every Wetnoz product is the pleasure it brings to the human and their home environment. Always striving to provide the latest in contemporary design, Wetnoz introduces the ZEN Collection. Taking it cues from nature, these pet dishes are created from a blend of fine bone china and porcelain; perhaps the most hygienic feeding surface available. We hope you will enjoy our colors selected from Mother Earth; Rose petal pink and Ocean sand.

## Why the unique 'Pill' shape?

### DOG

DISH PLACED INLINE WITH DOG'S BODY  
CONFORMS ERGONOMICALLY TO THEIR  
MOUTH AND ALLOWS EARS TO FALL  
OUTSIDE OF THE BOWL.

### CAT

DISH PLACED PERPENDICULAR TO CAT'S  
BODY REDUCES SENSITIVE WHISKER  
CONTACT.
