CLAUDE MEYLAN SCULPTEUR DU TEMPS

In the depths of the Swiss Jura and more precisely in L' Abbaye, a typical village in the luxury watch making Valley (the "Vallée de Joux") where great winters gave birth to great ideas and achievements in time keeping, the family company CLAUDE MEYLAN SA maintains proudly the watch making know-how inherited from their ancestors.

MEYLAN is one of the great names which stamped the expansion of watchmaking : In Mid-18th century Samuel Olivier Meylan from the Chenit District and Abraham-Samuel Meylan from L'Orient had been initiated into the mystery of this art in Rolle and Fleurier. Once they were back home, both began to benefit from their acquired knowledge: Samuel-Olivier Meylan manufactured the first pocket watch fitted with a disc-musical mechanism and then, the passion for movements became a family tradition.

CLAUDE MEYLAN grew further the inherited talents and imposed a new interpretation of time by "stripping" and decorating each and every possible elements of the movement. The "Squelette" art is pushed towards new horizons. CLAUDE MEYLAN enjoys presenting refined and decorated bridges, wheels and gear train to express a new vision for time while setting a new art in sculpted pieces. Using the latest innovations offered by the highest watch making technologies, we give birth to the most valuable timepieces. The sharp and efficient CLAUDE MEYLAN team is a family company with deep and sound values. Successive generations with the same motivation: their passion for movements, watch making and overall for ultimate details. Always in search for vintage and historical pieces, CLAUDE MEYLAN has an outstanding offer in traditional and reliable movements.

Entering our world, you will discover a various and extensive collection marked CLAUDE MEYLAN, Vallée de Joux. Each model is unique and dedicated to "true" time keeping. With a classic, yet contemporary style, colour and shape combined in great harmony to ensure charm and elegance. If you are connoisseurs and unconditional lovers of fine time-pieces, just yield to the temptation and opt for a wristwatch fitted with a vintage Valjoux hand engraved chronograph movement with column wheel and encased with great care in a 18 ct-gold case.

Line

LAC

Line LAC

The Lake of Joux forms integral part of our life. It is there since millenniums and contributes to the beauty of our valley. Its presence releases an infinite serenity, an infinite variation of colours and harmony. Sometimes blue and hot, sometimes white and cold, the lake is an extraordinary play-ground where considerable enthralling activities are taking place.

How to speak about it

- The emotion which the lake generates provide inspiration
- Sobriety and elegance are the key words
- Nature and quietness of the lake are found in creations
- Robust and always elegant or sporty
- The quiet force of our valley gives birth to serenity
- For women and men enjoying simplicity and sports elegance

Line

L'ABBAYE

Line L'ABBAYE

Since The Prémontrés affixed their prints, L'ABBAYE du Lac de Joux is a typical and characteristic village of the Valley. Throughout its history, L'ABBAYE became and remains one of the cradles of the high watch making industry. It is in its centre; in a house of the heart of the village going back to 1684 that CLAUDE MEYLAN is established.

How to speak about it

- Illustrate the know-how and the savoir-faire of the House
- Timeless and traditional watch making creations
- The case is very recognizable
- Practical and contemporary functions
- The heritage and the history of the high watch making go on
- So specific that it address multiple consumers
- Not ostentatious at all, the pieces are pure, elegant and timeless

Technical criteria

- Stainless steel case, see through backs
- Sapphire crystals
- Crowns with tubes
- Case back with screw or clipped
- Water resistant to 3 or 5 Atm
- Diamonds in G/H colour and VS purity
- Semi mechanical setting, machine preparation, grains swell by hand
- Dials and rings painted and galvanic
- Numerals and indices applied, printed or stamped
- Mechanical and automatic movements
- Decorated movements, sometimes skeletons
- Straps in leather or Alligator
- Semi frank edges or hand stitched
- Lining in CLAUDE MEYLAN navy blue calf
- Sewing by machine, saddle type
- Stainless steel tongue buckles

LÉGENDES

Line LÉGENDES

A legend is about a marvellous matter and it is very naturally that we can expect to find the key ingredients to give birth to legends in Valley of Joux and particularly in L' Abbaye.

The marvellous flirts with historical facts, popular imagination and poetic invention.

How to speak about it

- Family origins and ancestors assets are undisputable strengths
- To revive and remake historical movements
- All related to the marvellous history of watch making creation
- All benefit from of a very particular and proper "biography"
- Line will charm collectors and initiate amateurs
- Rare and with limited editions, pieces are thought after
- True historical work, they make it possible "to leave luxury and to enter Art"

Technical criteria

- Cases are in stainless steel or gold 18 carat - White, Yellow 3N or Pink 4N, see through backs
- Sapphire crystal
- Crowns with tubes
- Back with screws
- Water resistant to 3 Atm
- Dials and rings are painted, galvanic or out of natural mother-of-pearl
- Numerals and indices applied, printed or stamped
- Mechanical and automatic movements
- Decorated movements, sometimes skeleton
- Straps in leather or Alligator
- Semi frank edges or hand stitched
- Lining in CLAUDE MEYLAN navy blue calf
- Sewing by machine, saddle type
- Stainless steel or solid gold tongue buckles
