

# Indirect Procurement BPO Market Surpasses USD 4.2 Billion in 2024, Poised to Reach USD 8.9 Billion by 2032 with a CAGR of 9.6% | Japan Emerging as Key Contributor

**Tokyo, Japan – April 30, 2025 | Source: Dataintelo Consulting Pvt. Ltd** – According to Dataintelo, the **global Indirect Procurement BPO Market** was valued at **USD 4.2 billion in 2024** and is projected to reach **USD 8.9 billion by 2032**, expanding at a strong **CAGR of 9.6% during the forecast period**. Notably, **Japan is anticipated to contribute over 12.3% of the global revenue share by 2027**, driven by increasing adoption of digital procurement solutions and strategic sourcing models across large-scale Japanese enterprises.

Procurement modernization is gaining traction in Japan's key economic sectors, including automotive, pharmaceuticals, and high-tech manufacturing. The Tokyo Metropolitan Region alone contributed **36% of the country's total indirect procurement outsourcing activity in 2024**, reinforcing its position as Japan's commercial outsourcing hub.

## Market Overview and Future Outlook

The global Indirect Procurement BPO Market is undergoing rapid transformation, driven by digitization and increasing pressure to streamline non-core business operations. In 2024, **IT and telecom procurement services accounted for 31.4%** of the market share, followed by **facilities management at 24.8%**. The shift toward centralized procurement models and data-driven supplier performance analysis is revolutionizing how global firms manage indirect spend.

Japan is at the forefront of this trend, with over **48.2% of large enterprises investing in AI-based procurement automation platforms** as of 2023. In Osaka, Nagoya, and Fukuoka, organizations reported average **cost savings of 16–22%** through BPO partnerships. The Japanese government's push for supply chain resilience is also spurring greater interest in outsourced procurement support.
